WORK EXPERIENCE

Cisco

Business Analyst/Project Manager

San Jose, CA

October 2019 - Present

- Plan and manage the Marketing Tech Stack software and licensing move to the Cisco eStore
- Cross functionally plan with the New Experiences PM & IT Teams, CDC IT Team and UI/UX teams in order to create a Social Feed on the Cisco.com Search site
- Collaborate with localization team to ensure Search is optimized to perform well locally
- Organize agenda, guest speakers and run Quarterly Business Review and Marketing Technology PMO meetings
- Track and monitor monthly projects with our internal IT team using Rally to create workflows and quarterly priorities
- Perform QA and offer alternate solutions to ensure timely delivery of objectives to multiple product marketing teams across regions

ComplianceEase

Associate Product Manager/Project Manager (Dec 2016 – Oct 2019)

Burlingame, CA

February 2016 – October 2019

Business Analyst (Feb 2016 – Dec 2016)

- Analyzed and helped prioritize implementation of HELOC license support that resulted in reduction of Engg/QA effort by more than 50%. The implementation resulted in a 54% usage rate and 66% revenue increase in the product
- Owner and designer of Profile ID, a feature catered to resellers and regulators, adding the ability to customize settings on the fly and increase data submission accuracy on a per loan/audit basis
- Gathering requirements, writing user stories, maintaining backlog, scheduling, bug triage in JIRA
- Certified ScrumMaster (CSM) – March 2016

Castlight Health (formerly Jiff)

QA (Web & Mobile)

Mountain View, CA

November 2015 - February 2016

- Responsible for the successful integration of new apps across hardware platforms
- Tested applications on Android, iOS, PC, and Mac OSX environments.
- Test management across JIRA, TestRail, and Confluence.

Fitbit

Embedded QA Engineer

San Francisco, CA

July 2015 - September 2015

- Full regression, smoke, sanity test, new feature testing, creating and executing test cases, bug reporting firmware for the successful rollout of the Fitbit Alta and other fitness trackers
- Tested hardware on Fitbit's iOS, Mac OSX, Android, and PC apps
- Met deadlines in an Agile software development process and related tools (SCRUM, JIRA, Confluence, TestRail)

ComplianceEase

QA Engineer

Burlingame, CA

September 2012 - July 2015

- Created test plans and test cases, executed and reviewed automated test cases, validated bug fixes, filed bugs in JIRA
- Re-factored Java automation scripts in a Selenium framework and databases to make the testing tools more scalable to accommodate complicated test suites
- SQL queries in both MS SQL Server and Access

Google

Quality Control Operator

Mountain View, CA

September 2009 – June 2011

- Beta tested new features for Google Editions (now Google Play Books) and various Google projects
